

Announcing...

Kennedy's Newest Location

On November 5th, Kennedy Industries sales, service, inventory and pump repair will be moving into a beautiful new building, located on W. Grand River in New Hudson. The facility boasts over 9,000 square feet of office

and over 30,000 square feet of pump repair and warehouse space. The lot, measuring three acres, includes a large parking lot for employees, visitors and the shipping/receiving docks. The front pond, which features a new fountain, and wooded scenery will be visible from the front offices. The new facility includes office stations for 36 employees, two kitchens, a large upstairs conference room and multiple locker rooms.

All the office staff, sales personnel, field services department, and management will be transitioning to this new building on November 5th. Also expanding in the new facility will be inventory, shipping/receiving, and submersible pump repair. The current location at 4975 Technical Drive, Milford, will be dedicated to large and engineered pump repair.
