

Kennedy Industries, Inc. has an opening for a **Field Service Controls & Pump Maintenance Mechanic** to work on the road for our field service department. Our main office is located in Wixom, MI. Most work takes place in southeast Michigan, however we do work all across Michigan, and sometimes out of state.

**JOB TITLE:** Field Service Controls & Pump Maintenance Mechanic

**JOB DUTIES:** Troubleshoot, repair and complete maintenance on submersible pump stations, station controls, electrical panels and generators.

**REQUIREMENTS:** Motivated, hard worker that is willing to learn new skills.  
Comfortable using computers, technology is a big part of our everyday work on the road.  
Have good people skills and be comfortable working with customers.  
Willing and able to work long hours and overtime as needed.  
Willing to travel out of state during road jobs.  
Mechanically inclined and knowledgeable.  
SCADA experience is a plus.  
2+ years of experience with programming, maintenance or repair.  
Experience with submersible pumps would be a plus, but not required.  
Must have valid Michigan driver's license and a good driving record.

**TO APPLY:** Please E-MAIL resume to referenced address, ensuring to indicate the position for which you are applying and include any applicable generator certifications. No phone calls, please.
